

A B O O K  
O F T H E  
N A M E S  
O F A L L

Parishes, Market Towns, Villages, Hamlets,  
and smallest Places, In  
*E N G L A N D* and *W A L E S*.

Alphabetically set down, as they be in every Shire.  
With the Names of the Hundreds in which they  
are, and how many Towns there are in  
every Hundred.

So that naming any Town or Place in *England* and *Wales*, you  
may presently in the Alphabet find it, and know in what Shire  
and Hundred it is, and so know the distance from it to the Shire  
Town, and in the large Table for Shires in *England* how far to  
*London*, or from it to any other Town in *England*.

*A Work very necessary*

For Travelers, Quartermasters, Gatherers of Breeds, Strangers,  
Carriers, and Messengers with Letters, and all others that know  
the name of the place, but can neither tell where it is, nor how  
to goe unto it.

If you would find out any Shire, note that the Shires lie  
Alphabetically, beginning with *Barkshire*, and so  
following accordingly.

---

*Summa cuique virtus pulcherima merces.*

---

*L O N D O N*: Printed by *M. S.* for *Tho: Jenner*, at the  
South-entrance of the Royall Exchange. 1657.

*The high Wayes, and Redes, from any Shire Towne to*

A DIRECTION FOR  
the English

TRAVILLER

By which he Shal be inabled to Coast  
about all England and Wales:

And also to know how farre any Market or notable  
Towne in any Shire lyeth one from an other, and Whether  
the same be East, West North, or South from y<sup>e</sup> Shire Towne  
As also the distance betweene London and any other Shire or  
great town: with the situation thereof East, West, North, or South  
from London.

By the help also of this worke one may know (in what  
Parish, Village, or Mansion house, sooner he be in)

What Shires, he is to passe thorough &

which way he is to travell,

ill he come to his

journeys  
End.

*Infelix cuius nulli Sapientia predest.*  
Are to be sold by Thomas Senner at  
the South entrance of the Exchange

1643.

Jacob van Laneren sculp:

*The use of all the ensuing Tables.*

**T**O know the distance between any two Cities or Towns in any of these Tables, seek the places desired in the upper and side Catalogues of Towns, and direct your eye from either place between the lines both from above and from the side, and where the lines meet in square you shall find the number of miles. *For Example* ; If you would know how far *Lincoln* is from *Exeter*, look in the Card of Shire Towns, and find *Lincoln* in the side, and carry your eye directly from thence between the lines untill it come under *Exeter*, and where they meet in square you shall find 178, which is the distance of miles.

If you find any Town in the side which will not extend to make a square with the desired Town above, then look for the Town which you find in the side in the upper part, and the upper part in the side. *For Example*, If you desire to know the distance between *Gloucester* and *Oxford*, if you look *Gloucester* in the side, you cannot bring *Oxford* in a square with *Gloucester*, but if you look *Gloucester* above and *Oxford* in the side, you shall find the square and the distance 35 miles, and so of the other ensuing Tables.

*To know whether you are to travell East, West, North or South, from the place where you are to the place whither you intend to goe, and through what Shires you must passe.*

Look in the small Mapp of England, placed before the great Table of Shire Towns, and draw a streight line from the next shire Town lying in your way to that shire Town which is next the place whether you desire to goe, and you shall immediately see whether your Journey be East, west, North or South, and what Shires the line brings you through, those Shires you must passe. *As for Example*, If you would travell from *London* to *Torke*, you will perceive by the mapp that it lyeth North from *London*, then draw a line or carry your eye streight from *London* to *Torke*, and you shall find the way lyeth through *Midd'esex*, *Hartford-shire*, *Huntington-shire*, *Northampton-shire*, *Lincoln shire*, *Nottingham-shire*, and *Torke shire* ; and so for any other place.

*Again to know what market Towns lie in your way which way soever you travell.*

When you have seen in the generall Mapp what Shires you are to passe through, observe whether you must passe through the middle or the skirts of each Shire, then turn to the Tables of those Shires, and at the foot of each of them you shall have a Mapp, wherein the Towns are signified as they lie in every Shire by the first letter of every Town, and if you must pass through the middle of the Shire then the letters about the middle of the Mapp declare the Towns by which you must go, but if through the skirts of the Shire then the letters in the skirts of the map are your direction.

**BARKE.  
Shire.**  
*some con-  
fining Townes.*
